

Rogue G10 10 Watt Guitar Amp

FREE FREIGHT ON 4 PIECES

ROGUE

The new Rogue G-10 guitar amp produces a variety of tones in a compact size. The Rogue G-10 preamp section has a master volume and overdrive switch to go between clean and overdriven sounds. The 2-band EQ is simple and allows for adjusting the amp to match the player's style and guitar. The headphone jack automatically switches off the internal speaker. The Rogue G-10 is a great starter amp and will continue to serve as a practice tool for those that graduate to a larger amp.

- Compact size
- Switch for a clean or overdriven sound
- Master volume
- 2-band tone control
- 1/4" Headphone out
